Dear Michael,

Here's you chapter 3 with my comments.

I started to make systematic comments up to page 12 or so, and then I limited myself to more broader consideration. As you will see from my feedback, I had quite some issues with this chapter. It strikes me as rougher and more imprecise than the previous ones. Hope the comments will push you to more clarity and direction.

I'll read chapter 4 as soon as possible.

Cheers,

Martin
